

December Sales Analysis Dashboard

Project Overview

This project analyzes December sales performance across multiple e-commerce channels including Ajio, Amazon, Flipkart, Meesho, Myntra, Nalli, and Others. The dataset contains sales distribution by customer age group and product size.

Key Metrics

- Total Sales Volume: **1,622,033 units**
- Channels Analyzed: **7**
- Customer Segments: **Adults, Middle, Senior**
- Product Sizes: **XS, S, M, L, XL, XXL, 3XL, 4XL, 5XL, 6XL, Free Size**

Business Insights

Channel Performance

Channel	Total Sales
Amazon	510,486
Myntra	417,328
Flipkart	374,097
Ajio	101,384
Nalli	81,886
Meesho	74,390
Others	62,462

Customer Segment Analysis

- Adults generated the highest sales volume across all channels.
- Middle-age customers formed the second-largest customer base.
- Senior customers contributed a smaller but consistent share of sales.

Size Demand Analysis

Top-selling sizes: 1. M – 275,279 units 2. L – 261,049 units 3. XL – 224,528 units 4. S – 212,314 units 5. XXL – 211,292 units

Key Findings

- Amazon contributed over 31% of total sales.
- Myntra and Flipkart together represented nearly 49% of total sales volume.
- Core sizes (M, L, XL) accounted for the majority of demand.
- Adult consumers were the primary sales drivers across all marketplaces.

Tools Used

- Microsoft Excel
- Pivot Tables
- Data Cleaning
- Sales Reporting
- Business Intelligence

Skills Demonstrated

- Data Analysis
- Sales Analytics
- Dashboard Reporting
- KPI Tracking
- Data Visualization
- Business Insights Generation

Conclusion

The analysis highlights strong marketplace performance led by Amazon, Myntra, and Flipkart, while identifying key customer segments and product sizes driving sales. These insights can support inventory planning, demand forecasting, and channel optimization strategies.
